☐ FL # OR ☐ NOA		
☐ FL # OR ☐ NOA		

The proposed product(s) must meet the required pressures described in the code ([Chapter 3, Tables R301.2\(2\) & R301.2\(3\)](#))

*** Information ***

Residential tear-off roofs are required to have the **ROOF INSPECTION AFFIDAVIT** on the job site at the time of inspection.

ELECTRICAL

☐ Overhead Service or ☐ Underground Service

AMPS: _____ Volts: _____ ☐ Relocate ☐ Upgrade ☐ Set Ped, if a gang service # of Services _____

TRADE PERMIT APPLICATION

Information

- Plans indicating service of more than 600 amps on residential property shall be prepared and digitally or electronically signed and sealed by a Florida-registered electrical engineer.
- Plans indicating a service of more than 800 amp on commercial property shall be prepared and digitally or electronically signed and sealed by a Florida registered electrical engineer.
- All electrical equipment shall be located at or above the required base flood elevation.
- Temporary Power inspection will allow the power to be turned on, with the understanding that the areas under construction will not be occupied until a Certificate of Occupation or a Certificate of Completion is issued.

PLUMBING

- ☐ Sq. Ft. of Ground Area: _____ ☐ Sewer- Copy of paid tap receipt is required from Lee County Utilities
- ☐ Irrigation- From Lake ☐ or From Well ☐

MECHANICAL

All mechanical equipment shall be located above the required base flood elevation per Section 602.4 Flood hazard 2020 FBC.

A/C Stand/Bracket Replacement: YES ☐ NO ☐ if yes, include a site plan showing the location of stand as well as installation specifications.

- ☐ Replacement or ☐ New system
- ☐ Exterior Walk -in Cooler ☐ Interior Cooler; # of Compressors _____ ☐ Package Unit
- ☐ Split system ☐ Pool Heat Pump ☐ Air Handler Only ☐ Condenser Only ☐ Duct only

Regulations and information

- To be an owner builder you must maintain the home as your primary residence for a minimum of one year after CO. You must be present for the permitting process, the construction process, the inspection process, and at CO.
 - a. Properties in an irrevocable Trust or LLC cannot submit owner builder permits.
 - b. Condo units must hire licensed contractors for any work being done
- It is the contractor's responsibility to contact the Building Department when all final inspections are complete and obtain a Certificate of Occupancy or a Certificate of Completion.

602.4Flood hazard.

For structures located in flood hazard areas, plenum spaces shall be located above the elevation required by Section 1612 of the Florida Building Code, building for utilities and attendant equipment, or shall be designed and constructed to prevent water from entering or accumulating within the plenum spaces during floods up to such elevation. If the plenum spaces are located below the elevation required by Section 1612 of the Florida Building Code, Building for utilities and attendant equipment, they shall be capable of resisting hydrostatic and hydrodynamic loads and stresses, including the effects of buoyancy, during the occurrence of flooding up to such elevation.

Per Chapter 34. Article IV. Division 20 Lighting Standards Code, the applicant for any development order or building permit involving exterior lighting fixtures, must submit as part of the application evidence that the proposed work will comply with the outdoor lighting standards of the Lighting Standards Code. Fully shielded, full cutoff luminaires with recessed bulbs and flat lenses are the only permitted fixtures for outdoor lighting. Additional exterior lighting is not authorized unless specifically accepted in the Town's code.

Specifically, the submission must include the following:

- (1) Plans indicating the location on the premises and the type of illuminating devices, fixtures, lamps, supports, reflectors, and other devices.
- (2) A detailed description of the illuminating devices, fixtures, lamps, supports, reflectors, and other devices. The description must include manufacturer's catalogue cuts and drawings, including pictures, sections, and proposed wattages for each fixture.
- (3) All applications for development orders or building permits, except for single-family and two-family building permits, must provide photometric data, such as that furnished by the manufacturer of the proposed illuminating devices, showing the angle of cutoff and other characteristics of the light emissions including references to the standards contained herein.
- (4) All applications for development orders or building permits, except for single-family and two-family building permits, must provide photometrics in initial footcandles output for all proposed

TRADE PERMIT APPLICATION

and existing fixtures on-site shown on a 20-foot by 20-foot grid on an appropriately scaled plan. On-site lighting to be included in the calculations must include, but is not limited to, lighting for parking lot, canopies, and building-mounted and recessed lighting along the building facades and overhangs. The photometric plan must include a table showing the average, minimum, and maximum footcandles of illumination on the site and within 50 feet of the site and the calculations deriving the averages. Evidence must be provided demonstrating that the proposed lighting plan will comply with the requirements of this code. The use of a light loss factor (LLF) is not permitted in these photometrics. This photometric plan must be coordinated with the landscape plan to identify the location of trees and other landscaping features with respect to the lighting devices. Rejection or acceptance of the photometric plan will be based on the Lighting Standards Code.

Per Sea Turtle Conservation Ordinance 21-03:

Prior to issuance of a development order and/or building permits for **all new structures, new construction, and improvements to existing structures seaward of the Coastal Construction Control Line as defined by F.S. § 161.053**, a town approved lighting plan meeting the provisions of the Sea Turtle Conservation Ordinance 21-03 and LDC Chapter 34. Article IV. Division 20. - Lighting Standards is required.

Prior to issuance of a development order and/or building permits for **all multifamily, commercial, and industrial new structures, new construction, and improvements to existing structures landward of the Coastal Construction Control Line as defined by F.S. §161.053**, a town approved lighting plan meeting the provisions of this article and Chapter 34. Article IV. Division 20. - Lighting Standards is required.

Lighting plan means plan view and cross section drawings describing location, number, wattage, wavelength, elevation, orientation, fixture cut sheets, and all types of proposed exterior artificial light sources, including, but not limited to, artificial lighting affixed to permanent structures, outdoor lighting, pool lighting, and internally or externally lighted signs.

Long wavelength means a luminaire emitting light wavelengths of 560 nanometers or greater and absent wavelengths below 560 nanometers. Lamps that meet the definition of long wavelength through the use of filters, gels, or lenses are not permitted.

Fully shielded means a lighting fixture constructed in such a manner that the glowing elements, lamps, globes, or reflectors of the fixture are completely covered by an opaque material to prevent them from being directly visible from the beach. Any structural part of the light fixture providing this shielding must be permanently affixed.

Full cutoff means that a light fixture in its installed position does not emit any light, either directly or by reflection or diffusion, above a horizontal plane running through the lowest light-emitting part of the fixture. Additionally, the fixture in its installed position does not emit more than ten percent of its total light output in the zone between:

- (1) The horizontal plane through the lowest light-emitting part of the fixture, and
- (2) Ten degrees below the horizontal plane (80 degrees above the vertical plane).

Prior to the final inspection for a certificate of compliance pursuant to § 10-183 of the Town's LDC, site-verified footcandle readings must be provided demonstrating that the outdoor lighting, as installed, conforms with the proposed photometrics and the letter of substantial compliance provided by a registered professional engineer must include a certification that the outdoor lighting is in compliance with this code. **If any outdoor light fixture or the type of light source therein is changed after the permit or development order has been issued**, a change request or development order amendment must be submitted for approval together with adequate information to assure compliance with this code. This request or amendment must be approved prior to the installation of the proposed change.

DETAILED SCOPE OF WORK WORKSHEET

(Information required with application. Use of this worksheet is optional.)

ACKNOWLEDGEMENT OF TOWN OF FORT MYERS BEACH REGULATIONS BY THE **QUALIFIER**

NOTICE OF ADDITIONAL RESTRICTIONS: In addition to the requirements of this permit, there may be additional restrictions applicable to this property that maybe found in the public records of this County, and there may be additional permits required from other governmental entities such as the Water Management District, State agencies, or Federal agencies. I acknowledge that any demolition or renovation of an existing structure must comply with Florida Statutes s. 469.003, Florida Building Code, and any other relevant regulations, including state and federal law. I understand that I am responsible for notifying the Department of Environmental Protection in advance of any intentions to remove asbestos, when applicable, in accordance with state and federal law.

WARNING OF WORK IN THE COUNTY RIGHT-OF-WAYS: This permit does not authorize construction or installation of any structure or utility, above or below ground, within any right of way or easement reserved for access, drainage or utility purposes. This restriction specifically prohibits fencing, sprinkler systems, landscaping other than sod, signs, water, sewer, cable and drainage work therein. If such improvements are necessary, a separate permit for that purpose must be obtained from the Building Department.

INSPECTIONS: This permit is void if the first inspection is not made within six (6) months from the date issued or if no inspection has been made for a period of six (6) months from the most recently passed inspection. The permit is void if the zoning classification is violated. Applicant agrees to comply with the sanitary regulations and understands that the proposed structure may not be used or occupied until an approved certificate of occupancy is issued. Applicant further understands that failure to obtain permit or misrepresentation of the improvements is a misdemeanor and upon conviction, applicant can be punished as provided by the law. Failure to comply with the mechanics lien law can result in the property owner paying twice for improvements

NOTICE OF CLEARING RESTRICTIONS: Issuance of a Demolition Permit for a structure does not authorize removal of vegetation beyond the footprint of the structure. A Demo Permit is not a clearing permit.

WORK IN THE SPECIAL FLOOD HAZARD AREA: Be advised that Substantial Damage/Substantial Improvement requirements will apply to structures located in the Special Flood Hazard Area with Finished Floor Elevations below the Base Flood Elevation.

CERTIFICATION: Application is hereby made to obtain a permit to do the work and installations as indicated. I, **THE QUALIFIER**, certify that I have not performed any work or installation prior to the issuance of a permit and that all work will be performed to meet the standards of all laws regulating construction in this jurisdiction. The permit or application fee may have additional fees imposed for failing to obtain permits prior to commencement of construction. The permit application or approved permit expires if work is not commenced within 180 days from the date of issuance. I, **THE QUALIFIER** understand that the structure cannot be used or occupied until a certificate of occupancy is issued. By signing this permit application, I, **THE QUALIFIER**, agree that I have been retained by the property owner to provide contracting services for the trade for which I am listed. Furthermore, it is my responsibility to notify the Building Plan Review and Inspection Division should I no longer be **THE QUALIFIER** responsible for providing said contracting services. I, **THE QUALIFIER**, agree that I understand the review and issuing of this permit does not exempt me from complying with all County Codes and Ordinances.

NOTICE OF COMMENCEMENT INFORMATION Per Florida Statutes 713.135 a Notice of Commencement (NOC) is required for construction of improvements totaling more than

\$2,500, with certain exceptions. For A/C Repairs or Replacements a notice of commencement is required for improvements more than or equal to \$15,000. The applicant shall file with the issuing authority prior to the first inspection either a certified copy of the recorded NOC or a notarized statement that the NOC has been filed for recording, along with a copy thereof. In order to comply with the state requirement, permits will be placed in inspection hold until proof of the NOC is filed with the building permitting and inspection department. The issuing authority shall not perform or approve subsequent inspections until the applicant files by mail, facsimile, hand delivery, email or any other means such as certified copy with the issuing authority.

WARNING TO OWNER: YOUR FAILURE TO RECORD A NOTICE OF COMMENCEMENT MAY RESULT IN YOUR PAYING TWICE FOR IMPROVEMENTS TO YOUR PROPERTY. A NOTICE OF COMMENCEMENT MUST BE RECORDED AND POSTED ON THE JOB SITE BEFORE THE FIRST INSPECTION. IF YOU INTEND TO OBTAIN FINANCING, CONSULT WITH YOUR LENDER OR AN ATTORNEY BEFORE RECORDING YOUR NOTICE OF COMMENCEMENT.

REPAIR/IMPROVEMENT COST FORM

NOTICE TO PROPERTY OWNERS

Rebuilding your Home after the storm?

Adding on, renovating, or remodeling your home?

Here's information you need to know about the "50% Rule".

What is the FEMA 50% rule? The Town of Fort Myers Beach participates in the National Flood Insurance Program (NFIP) making affordable flood insurance available for structures within its jurisdiction through FEMA. The FEMA 50% Rule is a requirement for participation in this program. It limits the cost of improvements (additions, alterations, and/or repairs) to non-conforming structures to less than 50% of the "Market Value" of the structure prior to the start of work. If your home or business is below the FEMA required flood elevation, the Town of Fort Myers Beach has flood damage prevention regulations that will affect remodeling, renovations or additions to buildings.

What is a 'non-conforming structure'? FEMA identifies areas that are at higher risk for periodic flooding and determines the minimum lowest floor elevation for structures in these areas. Existing structures built prior to 1984 that have the lowest finished floor below the required elevation are non-conforming.

How is 'market value' determined? The Town of Fort Myers Beach will use the assessed value of your structure recorded by the Lee County Property Appraiser's Office. Only the value of the structure is pertinent, the value of the site improvements such as pools, accessory structures, fences, landscaping, docks, etc. are not included. If you disagree with the Property Appraiser's valuation of the structure, you may engage a State of Florida licensed property appraiser to submit a comparable property appraisal for the current market value of the structure. The appraised value of the structure less the value of all forms of depreciation is the 'market value'.

When do I need to submit a Repair/Improvement Cost Form? When a structure is non-conforming per FEMA guidelines, the following Repair/Improvement Cost Form including owner's affidavit, contractor's affidavit, worksheet and supporting documents would be submitted with the permit application.

What if the cost of improvement or repair exceeds 50% of the market value? If a building is 'substantially damaged' or 'substantially improved', it must be brought into compliance with the Town of Fort Myer's Beach floodplain regulations, which may include elevating the building to or above the 100 year flood elevation. Likewise, all electrical and mechanical equipment, bathrooms, and laundry rooms would need to be elevated. Only parking, building access and storage is allowed below the flood level.

Substantial Damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to it's before damage condition would equal or exceed 50 percent of the market value of the structure before the damage occurred. *(Note: The cost of the repairs must include all costs necessary to fully repair the structure to its "before damage" condition.)*

Substantial Improvement means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the 'start of construction' of the improvement.

Who can I contact for more information? For answers to any questions regarding the Town's Floodplain Regulations or elevation certificates, contact the Community Development Department at (239) 765-0202 or buildingpermits@fmbgov.com.

OWNER'S AFFIDAVIT

I hereby attest that the description included in the permit application for the work on the existing building that is located at the property identified above is all of the work that will be done, including all improvements, rehabilitation, remodeling, repairs, additions, and any other form of improvement. I further attest that I requested the above-identified contractor to prepare a cost estimate for all of the work, including the contractor's overhead and profit. I acknowledge that if, during the course of construction, I decide to add more work or to modify the work described, that the Town of Fort Myers Beach will re-evaluate its comparison of the cost of work to the market value of the building to determine if the work is substantial improvement. Such re-evaluation may require revision of the permit and may subject the property to additional requirements.

I also understand that I am subject to enforcement action and/or fines if inspection of the property reveals that I have made repairs or improvements that were not included in the description of work and the cost estimate for that work that were the basis for issuance of a permit.

I, _____ (Property Owner), hereby certify that _____ is my authorized agent/representative of the property described herein. All answers to the questions in this registration and any supplementary information attached to and made part of this registration is honest and true.

REPAIR/IMPROVEMENT COST FORM

CONTRACTOR'S AFFIDAVIT

I hereby attest that I have personally inspected the building located at the above-referenced address and discussed the nature and extent of the work requested by the owner, including all improvements, rehabilitation, remodeling, repairs, additions and any other form of improvement.

At the request of the owner, I have prepared a cost estimate for all of the improvement work requested by the owner and the cost estimate includes, at a minimum, the cost elements identified by the Town of Fort Myers Beach that are appropriate for the nature of the work. If the work is repair of damage, I have prepared a cost estimate to repair the building to its pre-damage condition. I acknowledge that if, during the course of construction, the owner requests more work or modification of the work described in the application, that a revised cost estimate must be provided to the Town of Fort Myers Beach, which will re-evaluate its comparison of the cost of work to the market value of the building to determine if the work is substantial improvement. Such re-evaluation may require revision of the permit and may subject the property to additional requirements.

I also understand that I am subject to enforcement action and/or fines if inspection of the property reveals that I have made repairs or improvements that were not included in the description of work and the cost estimate for that work that were the basis for issuance of a permit.

REPAIR/IMPROVEMENT COST FORM

ITEMS TO BE INCLUDED

Items that must be included in the cost of improvement or cost to repair are those that are directly associated with the building. The following list of costs that must be included is not intended to be exhaustive, but characterizes the types of costs that must be included:

Structural Elements	Interior Finishes	Utility and Service Equipment
- Foundations (e.g., spread or continuous foundation footings, perimeter walls, pilings, columns, posts, etc.) - Monolithic or other types of concrete slabs - Bearing walls, tie beams and trusses - Joists, beams, subflooring, framing, and ceilings - Wood or reinforced concrete decking or roofing - Floors and ceilings Attached decks and porches - Interior partition walls - Exterior wall finishes (e.g., brick, stucco or siding) including painting, decorative moldings and trim - Windows and exterior doors - Re-shingling or re-tiling a roof - Roofing, gutters and downspouts - Hardware	- Floor finishes (e.g., hardwood, ceramic, vinyl, linoleum, stone and wall-to-wall carpet over subflooring) - Bathroom tiling and fixtures - Wall finishes (e.g., drywall, painting, stucco, plaster, paneling, marble or other decorative finishes) - Kitchen, utility and bathroom cabinets - Built-in cabinets and bookcases (e.g., kitchen, utility, entertainment, storage and bathroom) - Interior doors - Interior finish carpentry - Hardware - Insulation	- HVAC equipment - Plumbing fixtures and piping - Electrical wiring, outlets and switches - Light fixtures and ceiling fans - Security systems - Built-in appliances - Central vacuum systems - Water filtration, conditioning and recirculation systems
		Other/Miscellaneous
		- Labor and other costs associated with demolishing, removing or altering building components - Overhead and profit - Include estimates of donated or discounted materials and owner/volunteered labor (Labor must include at fair market rate even if the work is done by the owner or otherwise freely donated) - Construction management and supervision

ITEMS TO BE EXCLUDED

Items that can be excluded are those that are not directly associated with the building. The following list characterizes the types of costs that may be excluded:

Permit and Site Preparation	Outside Improvements
- Costs to obtain/prepare plans and specifications - Land survey costs - Permit fees and inspection fees - Debris removal (e.g., removal of debris from building or lot, dumpster rental, transport fees to landfill and landfill tipping fees) - Cleanup (e.g., dirt/mud removal, building dry-out, etc.) - Items not considered real property such as: throw rugs (carpeting over finished floors), furniture, refrigerators, appliances which are not built in, etc. - Costs to temporarily stabilize a building so that it is safe to enter to evaluate required repairs.	- Landscaping & Irrigation Systems - Sidewalks and patios - Fences - Yard Lights - Swimming Pool/Spa - Screened Pool Enclosures Detached Accessory Structures, including: - Detached Garages - Detached decks - Sheds - Gazebos - Docks, Davits and Seawalls - Driveways
