**If using a Silt fence, it must be trenched to a depth of 8" below the ground surface.*

Provide a sketch including the following:

- 1) Silt fence location.
- 2) Locations of discharge from the site.
- 3) Narrative detailing best management practices (BMPs) as outlined by the State of Florida Erosion and Sediment Control Designer and Reviewer Manual. Manual Link: <https://www.flrules.org/Gateway/reference.asp?No=Ref>

Contractor shall contact the Building Department at inspections@fmbgov.com to request an inspection once the silt fence (or erosion control) is installed.

Stormwater Pollution Protection Plan (SWPPP) Information

Due to the nature of excavation and dewatering activities proposed, the Town recommends contractors submit a Stormwater Pollution Protection Plan (SWPPP) to mitigate erosion of sediment into the Town's Stormwater system and surrounding surface waters. The SWPPP shall comply with all applicable Federal, State, and Town regulations
